Day One:
I. Divide class into four groups. Have each group assign members one of the two readings as found on the given websites.

II. After reading the documents, students will define the following:
   a. state of nature,
   b. law of nature,
   c. natural rights, and
   d. role of government.

III. Using the chart paper provided, each group will write the group's definition of the terms and post.

Day Two:
IV. Class discussion. Students should compare and contrast the definitions and philosophies of Locke and Hobbes. Close the discussion by asking the class, "Which political philosopher's ideas support the notion that societies need government?"
